

REMARKS

The allowability of claim 10 indicated in the Action is acknowledged appreciatively and accepted by combining it with its parent claim 1, the combined claim 1 referring to channels to avoid its rejection under 35 USC 112, second paragraph.

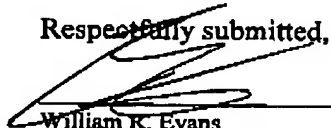

The dependent claims are also amended as courteously suggested in the Action to avoid their rejections under 35 USC 112, except for "spraying head" in all the claims.

While spray may be more euphonious, the applicant may be his own lexicographer so long as the lexicography does not contradict usual meaning, which it clearly does not here.

MPEP 2106.

Reconsideration and allowance are, therefore, requested.

Respectfully submitted,

William K. Evans
